- Foley Catheter

# "Innovation at the Heart of Healthcare"

"SYSMED TECHNOLOGIES is among the few medical disposable companies to have automatic computerised vision inspection system set up for entire manufacturing facility. Each finished device is inspected against a master by high resolution cameras. This along with our fully automatic production assembly lines and well equipped state-of-the-art R & D capability gives us the confidence to guarantee an unbeatable quality."

- · Needle Orientation
- · Needle Tip Damage
- · Trim Distance
- · Catheter Tipping Quality
- · Needle and Catheter Length Variation
- · Needle Burr

Zero Manual Error Minimal Bio-Burden Consistent Quality at all Levels

## SysSafe

#### Safety I.V. Cannula with Injection Port & Wings

- Added safety feature for prevention of needle stick injury
- Irreversible activation of safety mechanism
- · Colour wings body
- Available in PUR/FEP variants
- Available in MGP packing
- Sizes: 14G to 26G

Product Code :S01702XXXX\*

### **Sysflon Premium**

### I.V. Cannula with Flip Top Injection Port Cap & Color Wings

- Injection port with one way silicon injection valve
- 6% luer taper for compatibility with all standard devices
- Available in PUR/FEP variants
- Available in MGP packing
- Sizes: 14G to 26G

## **Syswin Safe**

#### Safety I.V. Cannula without Injection Port & Wings

- Added safety feature for prevention of needle stick injury
- Irreversible activation of safety mechanism
- Colour body
- Available in PUR/FEP variants
- Available in MGP packing
- Sizes: 14G to 26G

## Sysflon

### I.V. Cannula with Injection Port & Wings

- Injection port with one way silicon injection valve
- 6% luer taper for compatibility with all standard devices
- Available in PUR/FEP variants
- •Available in MGP packing
- Sizes: 14G to 26G

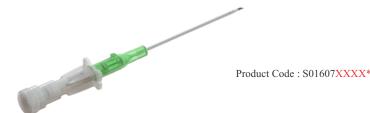

### • I.V. Cannula with Integrated Three Way Stop Cock

- Colour wing body
- 360° rotation of the tap without limitation
- Available in PUR/FEP variants
- Sizes: 14G to 26G

Product Code: S01504XXXX\*

# **Infusion Therapy**

#### I.V. Cannula without Injection Port & Wings

- · Colour body
- Main body specially designed with projection for low point gap to facilitate better maneuvering
- Available in PUR/FEP variants
- Available in MGP packing
- Sizes: 14G to 26G

Product Code: S01203XXXX\*

### **Syscan**

### I.V. Cannula without Injection Port & With Wings

- Colour wing body
- Main body specially designed with projection for low point gap to facilitate better maneuvering
- Available in PUR/FEP variants
- · Available in MGP packing
- Sizes: 14G to 26G

Product Code : S0310101XX

### Sysway Extn.

### Three Way Stop Cock with Extension Tube

- Three Way Stop Cock at one end & male luer lock at the other end of extension tube.
- High quality kink resistant tube that provides smooth flow. Universal 6% taper to make it compatible with wide range of other medical equipment.
- · Arrow symbols to indicate the direction of flow.
- Minimum priming volume required for correct drug administration.
- The integrated 3-Way stop cock offers multiple infusion line.
- Tube length available (cm): 10, 25, 50, 80, 100,150, 200

## Syspen

#### I.V. Cannula without Injection Port & Wings (Pen Type)

- · Colour body & Cap
- Main body specially designed with projection for low point gap to facilitate better maneuvering
- Available in PUR/FEP variants
- · Available in MGP packing
- Sizes: 14G to 26G

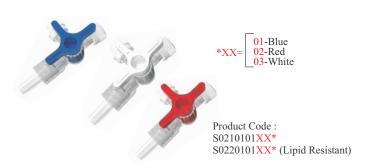

Product Code: S01405XXXX\*

### **Sysneo**

#### I.V. Cannula without Injection Port & With Small Wings

- · Colour wing body
- Main body specially designed with projection for low point gap to facilitate better maneuvering
- Available in PUR/FEP variants
- Available in MGP packing
- Sizes: 24G & 26G

## Sysway

#### Three Way Stop Cock

- Pressure handling capability: up to 10 bar
- Universal 6% taper to make it compatible with wide range of other medical equipment.
- Arrow indication mark on handle to indicate the direction of flow.
- Design with minimum priming volume to ensure correct drug administration.
- · Available in Lipid Resistant / Non Lipid resistant.
- Available : Blue, Red & White

## **Anaesthesia & Respiratory Care**

### **Endotracheal Tube (Plain/Cuffed)**

- Made from non-toxic, clear, transparent, thermoresistant medical grade PVC (Polyvinyl Chloride).
- High volume, low pressure, evenly shaped cuff with a pilot balloon integrated to the tube for secure positioning inside the trachea
- Fitted with standard 15 mm connector for attachments to all standard ventilatory circuits in operation theaters or intensive care units.
- Graduated markings to display distance from the tip.
- Well marked to indicate the internal/external diameter.
- Nasoral tip suitable for both nasal and oral intubation.
- Full length radio-opaque lines to assess position of the tube radiographically.
- Murphy's eye near the tip to circumvent any obstruction.

# **Urology**

### **Foley Catheter**

- Used for short/long term urine drainage
- Made up of latex bonded with silicone elastomer which eliminates the risk of encrustation
- Distal end is coned, smooth, and burr free eyes for a traumatic intubation.
- Provided with symmetrical large capacity balloon that ensures straight tip for proper urine flow and good sphincter action, preventing bladder leakage.
- High strength polymer layer in the middle of the catheter ensures wider inner diameter and hence high flow rate
- Smooth eye, ultra thin highly elastic balloon and hard non-return valve for trouble free inflation and deflation
- Valve is colour coded for instant size identification.
